### **Notice of appointment**

**Montreal (Canada), August 15<sup>th</sup>, 2011.** Mr. Christian Perreault, Senior Partner of Explorer Solutions, is proud to announce the appointment of Mr. Charles Cormier, aeronautical information and instrument flight procedures specialist, as Senior Consultant with Explorer Solutions.

Charles Cormier has over 35 year's aviation experience, as a pilot in the Canadian Forces, with Transport Canada, NAV CANADA, and private industry. He holds a Bachelor of Administration degree from Collège Militaire Royal de St-Jean, and is a graduate of the Canadian Forces Command and Staff College. After flying Sea King helicopters in the 1991 Gulf War, he retired from the military as a Lieutenant-Colonel with 22 years of service. Charles pursued his career as an aeronautical information specialist, formerly with NAV CANADA (Ottawa), MDA Aviation (NB), and IDSNA (QC), where he designed and supervised over 1000 instrument flight procedures published in Canada, Myanmar, and Ecuador. He is also the former Vice-President of Approach Navigation Systems (NB) and was most recently the Chief Technical Director at IDS North America in Montreal. He specializes in optimizing runway operational aspects and design of flight procedures to any airport.

#### **About Explorer Solutions**

Explorer Solutions is a team of experienced consultants with expertise in the airport, economic development and aerospace sectors. Explorer Solutions offer specialized services in airport planning and management, economic and business development, business intelligence, investment attraction and coaching. We are also one of the most innovative firms in strategic planning for airports, industrial parks and technology parks.

Explorer Solutions is headquartered in St-Bruno-de-Montarville in the greater Montreal (Canada) area, with USA satellite offices in Atlanta (GA) and Marquette (MI), and partner offices in Europe, Asia and South America.
